

ALLIANCE FOR A  
HEALTHY KANSAS

## Expand KanCare: Just the Facts

KanCare expansion is a fiscally responsible Kansas-based solution that will bring hundreds of millions of your federal tax dollars back home to Kansas and create jobs, boost our economy, protect hospitals, and improve the health of Kansans.

More than 150,000 Kansans fall into a health coverage gap. They earn too much to qualify for KanCare but not enough to be eligible to get financial help to buy private insurance. These are hard working men and women who are left with few options for affordable health coverage. To close that gap, a diverse coalition of over 100 business, civic, and health care organizations from across the state have come together to form the Alliance for a Healthy Kansas – urging our state to expand KanCare now.

### **Expanding KanCare will create thousands of jobs and return hundreds of millions of tax dollars to our state every year**

- Expanding KanCare will inject hundreds of millions of dollars into the Kansas economy and create more than 3,800 **new jobs**.
- Kansas does not save money by refusing expansion — it simply gives up the opportunity to bring our tax dollars back to the state. Nearly all the **costs of expansion are covered** by the federal government. Under federal law, at least 90% of the costs of expanding KanCare will be funded by our own federal tax dollars coming back from Washington, DC.
- Expansion **saves money** for states. Other states that have chosen to responsibly expand Medicaid are seeing substantial revenue growth and budget savings on other services.

### **Expanding KanCare will protect hospitals and communities**

- All hospitals are at risk – not expanding KanCare could limit access to health care in rural and urban communities.
- One-third of the rural hospitals in Kansas – more than 30 hospitals – are considered financially vulnerable. Expanding KanCare could mean the difference between staying open or closing their doors.

### **Expanding KanCare would improve health and financial security for 150,000 Kansans and increase access to preventive care.**

- Expanding KanCare will provide **health coverage** to individuals and families who fall into the coverage gap – Kansans who work for a living but earn too much to qualify for the current program, but too little to get financial help to buy a private plan.
- Expansion **increases access to primary and preventive care**, reduces the cost of uncompensated care, and enhances continuity of coverage, which improves health and reduces costs.
- Expanding KanCare **saves lives**. States that have expanded experience lower mortality.

**Thirty-six states and DC have taken advantage of this opportunity. It's time for Kansas to join them. For more information, visit the Alliance for a Healthy Kansas website at <http://ExpandKanCare.com>.**
